METZNER MBS 200

UNIVERSALLY APPLICABLE FOR A MAXIMUM MATERIAL CROSS-SECTION OF 190 X 80 MM

FEATURES

- Materials such as hoses and profiles with diameters of up to 80 mm or cross-sections of up to 190 x 80 mm can be processed
- One machine - many applications: Thanks to an integrated quick-change system, the cutting modules can be swapped out in seconds
- The modular design and minimal development effort make our cutting machines not only perfectly adaptable, but also extremely cost-effective to purchase and operate
